Product Datasheet

Technical Data

Formulation	PBS, pH 7.0. Contains no stabilizers or preservatives
Clone	GR-20
Isotype	Rat IgG2a, κ
Application	in vivo/vitro IFNγR neutralization
Source	CHO
Storage (From the date of receipt)	Store the undiluted solution at 4°C in the dark to avoid freeze-thaw cycles.
Purity	99%
Protein concentration	1.91 mg/ml
Endotoxin Level	＜1EU/mg

Biological Activity

Description	Anti-mouse IFNγR (CD119)-Invivo reacts with the mouse IFNγR (interferon gamma receptor) α chain also known as CD119 and IFNγ receptor 1. CD119 heterodimerizes with IFNγ receptor 2 (AF-1) to form the IFNγR, a Class II cytokine receptor.

FOR RESEARCH USE ONLY. NOT FOR USE IN HUMANS.
Specific storage and handling information for each product is indicated on the product datasheet. Most Capsid Bio products are stable under the recommended conditions. Products are sometimes shipped at a temperature that differs from the recommended storage temperature. Short-term storage of many products are stable in the short-term at temperatures that differ from that required for long-term storage.
We ensure that the product is shipped under conditions that will maintain the quality of the reagents. Upon receipt of the product, follow the storage recommendations on the product data sheet.
