Product Datasheet

Technical Data

Formulation	PBS, pH 7.0. Contains no stabilizers or preservatives
Clone	TRFK5
Isotype	Rat IgG1, κ
Application	in vivo IL-5 neutralization, in vivo eosinophil depletion
Source	CHO
Storage (From the date of receipt)	Store the undiluted solution at 4°C in the dark to avoid freeze-thaw cycles.
Purity	99%
Protein concentration	2.36 mg/ml
Endotoxin Level	＜1EU/mg

Biological Activity

Description	Anti-mouse/human IL-5-Invivo reacts with mouse and human interleukin-5 (IL-5), a 26 kDa homodimeric cytokine. IL-5 stimulates B lymphocyte differentiation and proliferation and increases the secretion of IgM and IgA.

FOR RESEARCH USE ONLY. NOT FOR USE IN HUMANS.
Specific storage and handling information for each product is indicated on the product datasheet. Most Capsid Bio products are stable under the recommended conditions. Products are sometimes shipped at a temperature that differs from the recommended storage temperature. Short-term storage of many products are stable in the short-term at temperatures that differ from that required for long-term storage.
We ensure that the product is shipped under conditions that will maintain the quality of the reagents. Upon receipt of the product, follow the storage recommendations on the product data sheet.
