Product Datasheet

Technical Data

Formula	$C_{24}H_{26}N_4O_5S$					
Molecular Weight	482.55	**CAS No.**	841301-32-4			
Solubility (25°C)*	In vitro	DMSO	96 mg/mL (198.94 mM)			
		Water	Insoluble			
		Ethanol	Insoluble			
	In vivo (Add solvents to the product individually and in order)	Oral Administration	Homogeneous suspension	CMC-NA	≥5mg/ml	Taking the 1 mL working solution as an example, add 5 mg of this product to 1 ml of CMC-Na solution, mix evenly to obtain a homogeneous suspension with a final concentration of 5 mg/ml.

* <1 mg/ml means slightly soluble or insoluble.
* Please note that Capsid Bio tests the solubility of all compounds in-house, and the actual solubility may differ slightly from published values. This is normal and is due to slight batch-to-batch variations.
* Room temperature shipping (Stability testing shows this product can be shipped at 2-8°C for storage purposes.)

Preparing Stock Solutions

Biological Activity

Description	Amenamevir (ASP2151) is a potent **helicase-primase** inhibitor and a novel class of antiviral agent.
Targets	helicase-primase [1]
In vitro	ASP2151 inhibited the in vitro replication of HSV-1. The mean EC50s of ASP2151 against HSV-1 and HSV-2 were 14 (range, 7.7 to 20) and 30 ng/ml (range, 15 to 58), respectively[2].
In vivo	In the cutaneously HSV-1-infected mouse model, ASP2151 dose dependently suppressed intradermal HSV-1 growth, with the effect reaching a plateau at a dose of 30 mg/kg of body weight/day[2].

Protocol (from reference)

Animal Study:[2]

- **Animal Models**
  HSV-1-infected mice
- **Dosages**
  1, 3, 10, 30, or 100 mg/kg/day
- **Administration**
  oral

RETURN POLICY

Capsid Bio's Unconditional Return Policy ensures a smooth online shopping experience for our customers. If you are in any way unsatisfied with your purchase, you may return any item(s) within 7 days of receiving it. In the event of product quality issues, either protocol related or product related problems, you may return any item(s) within 365 days from the original purchase date. Please follow the instructions below when returning products.

SHIPPING & STORAGE

Capsid Bio products are transported at room temperature. If you receive the product at room temperature, please rest assured, the Capsid Bio Quality Inspection Department has conducted experiments to verify that the normal temperature placement of one month will not affect the biological activity of powder products. After collecting, please store the product according to the requirements described in the datasheet. Most Capsid Bio products are stable under the recommended conditions.

NOT FOR HUMAN, VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.
