Anti-mouse CD11c-Invivo

Catalog No.C18289 Batch:C1828903

Product Datasheet

Technical Data

Formulation	PBS, pH 7.0. Contains no stabilizers or preservatives
Clone	N418
Isotype	Armenian Hamster IgG2
Application	in vivo targeting of dendritic cells
Source	CHO
Storage (From the date of receipt)	Store the undiluted solution at 4°C in the dark to avoid freeze-thaw cycles.
Purity	99%
Protein concentration	7.52 mg/ml
Endotoxin Level	＜1EU/mg

Biological Activity

Description	Anti-mouse CD11c-Invivo reacts with mouse CD11c, the most widely used defining marker for murine dendritic cells (DCs). CD11c is also known as integrin alpha-X (Itgax) and CD11 antigen-like family member C.

FOR RESEARCH USE ONLY. NOT FOR USE IN HUMANS.
Specific storage and handling information for each product is indicated on the product datasheet. Most Capsid Bio products are stable under the recommended conditions. Products are sometimes shipped at a temperature that differs from the recommended storage temperature. Short-term storage of many products are stable in the short-term at temperatures that differ from that required for long-term storage.
We ensure that the product is shipped under conditions that will maintain the quality of the reagents. Upon receipt of the product, follow the storage recommendations on the product data sheet.
